Physical design and layout of the city is a city that reflects the critical content induces a sense of place, sense of space and significantly bring down the space Urban landscape as one of the issues and concepts involved in understanding the processes of understanding, analyzing and designing urban spaces, based on the abundance of theorizing. This writing method structural analysis of the architecture of the city is trying to influence the tomb of Ahmad IbnIshaq religious places, especially in the design of urban drainage Sarpolezahab may present In this way the various aspects of urban architecture and holy religious sites to include physical shape, location and method of manufacture and is analyzed for its Christmas decoration - and the resulting investigation and urban of the direct impact Tomb of the Sarpol shows Zahab makes.

Introduction
City of Sarpolezahab in Kermanshah city is undoubtedly one of the most important is that in the past the main communication route from Tehran to Mecca and the Holy Shrines of Saudi Arabia and Iraq Although the urban fabric of the city, such as Iran's major cities, but its formation in Framework Dvlablash theory (1918) may be introduced. As mentioned, due to the city being open to pilgrims on the road to the Holy Shrines, including magnanimity Qommi Ahmad IbnIshaq has been because of his advanced age and disease around the year 260 Hegira. Lunar passed away. The noble was buried in the town cemetery and the first Pahlavi era tomb was built for his tomb after the Iran-Iraq War and the resulting damage to it, the repair was. What is mentioned in this article, the impact of this holy place Sarpolezahab urban drainage design and developing it along the communication path between Iran and Iraq, and around this holy place What is the result of this approach is that the most important factors in the development and stability of the relationship and result in the same way the Hajj pilgrimage town, on the Holy Shrines and the tomb of Ahmad IbnIshaq is. History of the formation of Sarpolezahabdrainage
Sarpolezahab in Kermanshah city in the West with an area of about 879 square kilometers between the 52/45 'east longitude and 24/34 were latitude (geographical organization of the armed forces,2006: 3)It continued to clarify the lives of two famous town of Helwan and drainage Helwan important city in Sassanid era and was rebuilt by G. Sasanian (Cambridge, 2009: 423), which was abandoned in the mid-eighth century and drainage, resulting in the destruction of the city was built close Helwan (Ghanbari, 2011: 34), the city's pre-Mozaffari been on political and drainage period after the name of the city is not mentioned in the sources.

Reddit drainage as a village in Pul-half miles (Ghanbari, 2011: 57) is presented in the manuscript In the early period due to two factors reinforced clergy and Holy Shrines pilgrimage road, the road was then considered by the Qajarstate Sarpolezahabacity drainage due to exposure route not far from the influence and developed over time. The best road Iranian pilgrims visit the Holy Shrines, Tehran Road - Kermanshah is. The road to the main road Shrines period was as Agha Mohammad Khan and Ahmad Shah Qajar, the route taken for burial to the Holy Shrines (Saravi, 1991: Over the course of the last homes of the most important pilgrimage and trade caravans on Iranian soil, the drainage area of Sarpolezahab (Counselor al, 1958: 124), which includes the caravan home Sorkheh dark gray, Sarpolezahab, and is Qrallah (immigrants, 27-26) The handles Sarpolezahab, Shah Abbasi Caravanserai and Bidestan, post office and was pleased with pilgrims bathing (Rawlinson, 1982: 316; Of Sadid al-minai, 1982: 317).

Today, the group's demographics Sur further drainage Jaffe, Kelleher and Goran form. Jaffe did the Jaffee (Sorani) and Kurdish people with Kelleher and Goran Kalhori (Kermanshah) speakJaf tribe people Shafi'i Sunni and Shiite religion and Kelleher and Goran further from the truth (Yarstan) areShiite religious ceremony at the monument preparedness and Mr. Ahmad ibnIshaq doing a Sunni mosque usually Qadri al-Husseini (Syed Mohamed TahirShamsiHosseinHashemi in 1350, it has) and from the community in the event Jmkhanh hold her (James, 1408: 292)The main idea can be formed in the formation of urban drainage Sarpolezahab in the framework of the theory and possible Dvlablash partisan considered (Friedman, 2004: 8-10) who, according to this theory, the
The tomb records of:

Because of the city's urban fabric shows Pul drainage component cities in the Islamic period and the Islamic period to demonstrate aspects of the architecture. The most important aspects of the architecture of the building is a tomb Undoubtedly the tomb of the mosque, the most important Muslim edifice is seen in most cities of Iran (Kiani, 2006: 53) Studies in Islamic architecture, with reforms such as the Shrine of the tombs, domes, shrines, threshold, and was used in Step (push-Hill, 2009: 66) That the two terms can be used to distinguish the status of shrines, relics and other prime ample striking is the importance of having these buildings (Neyestani, 2002: 2).

Communicate directly with the dead has been built as tombs of ordinary people in ordinary, simple people and officials raised the tombs are the burial index (Sower, 2000: 75). Build the tombs of the character of the religious, political, or holy people as sometimes happens governmental funds represent (Mousavi Haji, 2008: 238). Professor Halen push the Tomb of history says the tomb was part of a public monument, this tomb was efficiently sanctity and purity of the colors precisely belonging to mosques, schools and other religious buildings in the vicinity of the tomb was. The first of many such public monuments have been recorded in the Seljuk period (push Halen, 2009: 319).

Tomb construction, especially for Imamzadeh and scholars of the fourth centuryFourth centuries onwards, coinciding with KhfayAbbasi was introduced in the East and North of Iran (Grabar, 1995: 16) Since the roots of the tomb, but it is difficult Sassanid monuments are flung wide - it could be a model tomb in Iran Amir Ismail Samani Mausoleum of this model can be built on 331 years of steam. Reddit also be seen However, with the arrival of the seventh century Mughal tomb construction also changed to Iran. These changes in cone-shaped roof tombs of kings leave the tent and using a brick pattern with Christmas decoration motifs comparable tents Turks and typified it is Khhrqan towers.
